

The Audiometric Testing Procedure:

Milne Safety can provide one to one audiometric hearing tests, conducted by our qualified hearing specialist.

Our Audiometric Van which comprises of an HSE approved audio sound booth can be at your company site.

Duration: 1/2 day or 1 day testing for group testing

Location: Testing can be completed at your Company Site or for smaller numbers of employees at our open days at Milne Safety.

- > We use the latest testing equipment, which provides an accurate test.
- > All employees are required to complete a questionnaire, prior to the test to ensure the highest standards.
- > All employees' ears are examined using an otoscope to ensure that the test can be completed.
- > On completion of the audiometric testing all the records and recommendations are sent to your company.
- > The testing process is approximately 20 - 25 minutes per person.
- > We regularly check the ambient noise in the vehicle using a sound level meter to ensure it meets the required noise level.
- > Should the sound levels exceed the recommended guidelines the audiometric test will cease, until the temporary noise is reduced.
- > Our mobile audiometry unit is attenuated to ensure the necessary sound levels can be met.

Please contact sales@milnesafety or call 01953 607093 to book the testing
